Schedule

SIL only consists of a small number of fixed dates. Most of them are the dates of the lecture and seminar in Entrepreneurship. Meetings in the Innovation Labs are organized individually with the groups. Basically, the organization of the work in the Lab is up to the teams.

How to access the virtual meetings will be announced at the Kickoff event. The invitations to the Kickoff event will be sent to the selected participants.

Please be aware of the earlier start of the lecture Entrepreneurship. However, the lecture gets recorded and hence you can also rework the content if you can't participate in the first appointments. See http://etm.entech-non.kit.edu/english/1393_1442.php for information regarding the lecture Entrepreneurship (e.g. ILIAS course and participation in the meetings).

Legend:
S → Seminar, L → Lecture, AIL → Automation Innovation Lab, IISL → Interconnected Intelligent Systems Lab, I4IL → Industry 4.0 Innovation Lab.

Note:
In addition, there will be technical presentations from company representatives to give you insights in their daily work. Excursions to companies are planned as well. This is for the purpose of supporting the ideation process. These appointments are voluntary, and the details will be communicated at the Kickoff event.
